Case Study

Child:

Therapist:

Clinical Environment:

My Case

- Age:
- School:
- History:
  - Developmental
  - Medical
  - Educational
- Previous Interventions: (successful or reasons not)

Reason I chose this case

- What I hope to gain from this case?

Current Team Members Goodness of fit

Occupational Profile – ADL's

- Dressing
- Grooming
- Bathing
- Toileting
- Sleeping
- Eating

Community Profile

- Academic
- Social
- Leisure

Relationships with Family members

- Caregiver 1
- Caregiver 2
- Sibling 1
- Sibling 2
- Sibling 3
- Relative 1 (only if relevant)
- Relative 2 (only if relevant)
- Other:

Caregiver attachment styles

- Caregiver 1 Style

- Caregiver 2 Style

Assessment Results

Clinical Observations during assessment

- Non-verbal communication
- Intuition
- Your "gut" feel for client
