

Hope for Children & Families

On Demand Training for Child Welfare Professionals

Specifically designed for Child Welfare Professionals, *Hope for Children & Families* is a comprehensive program providing essential knowledge and practical tools to understand, address, and support the intricate needs of children who have experienced trauma.

3 Progressive Modules *

**Each module is crafted as a standalone unit, enabling child welfare professionals to focus on specific areas of interest or complete the entire series at their convenience.*

1 Attachment & Trauma 101
This module covers trauma and attachment in child welfare, offering strategies to support affected children and families.

2 Strategies for Prevention, Placement, and Permanency
This module teaches trauma-responsive strategies using the therapeutic parenting cycle to support families, reduce unnecessary placements, and promote stable, healing transitions for children.

3 Moving from Trauma-Informed to Trauma-Responsive for Supervisors and Leaders
Module 3 explores the shift from trauma-informed to trauma-responsive child welfare systems, with guidance for leaders on promoting equity, reflective supervision, and staff well-being.
